

# Facilitating Imaging & Biophotonics

*Physicists and Biologists Working Together*

**ARC Centre of Excellence for Coherent X-ray Science  
2011 Annual Workshop**

**BIO21 Institute, Melbourne, Australia**

**Dates: 10<sup>th</sup> – 12<sup>th</sup> October 2011**

***(incorporating a Super-Resolution Optical Microscopy Workshop on  
Tuesday October 11<sup>th</sup>)***

## Workshop Themes:

**X-ray Imaging  
Super-Resolution Optical Microscopy  
XFELS & Short Wavelength Lasers  
Electron Diffraction & Imaging**

## Invited Speakers Include:

**John Spence**, Arizona State University, USA  
**Abbas Ourmazd**, UW-Milwaukee, USA  
**Peter Kner**, University of Georgia, USA  
**Carolyn Larabell**, UCSF, USA  
**Jom Luiten**, Eindhoven University of Technology, Netherlands  
**Tatiana Latychevskaia**, University of Zürich, Switzerland  
**Peter Carlton**, Kyoto University, Japan  
**Bonnie Wallace**, Birkbeck College, UK  
**Markus Sauer**, University of Würzburg, Germany  
**Jabez McClelland**, NIST, USA  
**Kat Gaus**, University of New South Wales, Australia  
**Christian Soeller**, University of Auckland, New Zealand  
**David Sampson**, University of Western Australia, Australia  
**Geoffrey Kong**, WEHI, Australia

## Features:

- Major International and Australian Speakers
- Site Tour of the Australian Synchrotron
- Poster & Oral Presentations of Recent Research
- Round Table Discussions
